

# Jackpot All Levels

**Pick Your Jackpot**  
 There are three jackpots on the course. You may attempt each jackpot once. The first successful jackpot is the one you keep. You must complete a jackpot to qualify. Jackpot values are based on difficulty. Jackpot A (solid line) is worth 15 points. Jackpot B (dash line) is worth 20 points. Jackpot C (dot line) is worth 25 points. An attempt occurs when the first two obstacles of a jackpot are taken in sequence in the correct direction. If an attempt is not successful, you will get regular points for each obstacle in the jackpot that was taken successfully.

Big dogs get a 30 second opening. Little dogs get a 35 second opening. After the opening, a horn will sound indicating there are 18 seconds for big dogs and 20 seconds for little dogs remaining to finish point accumulation and get to the table.

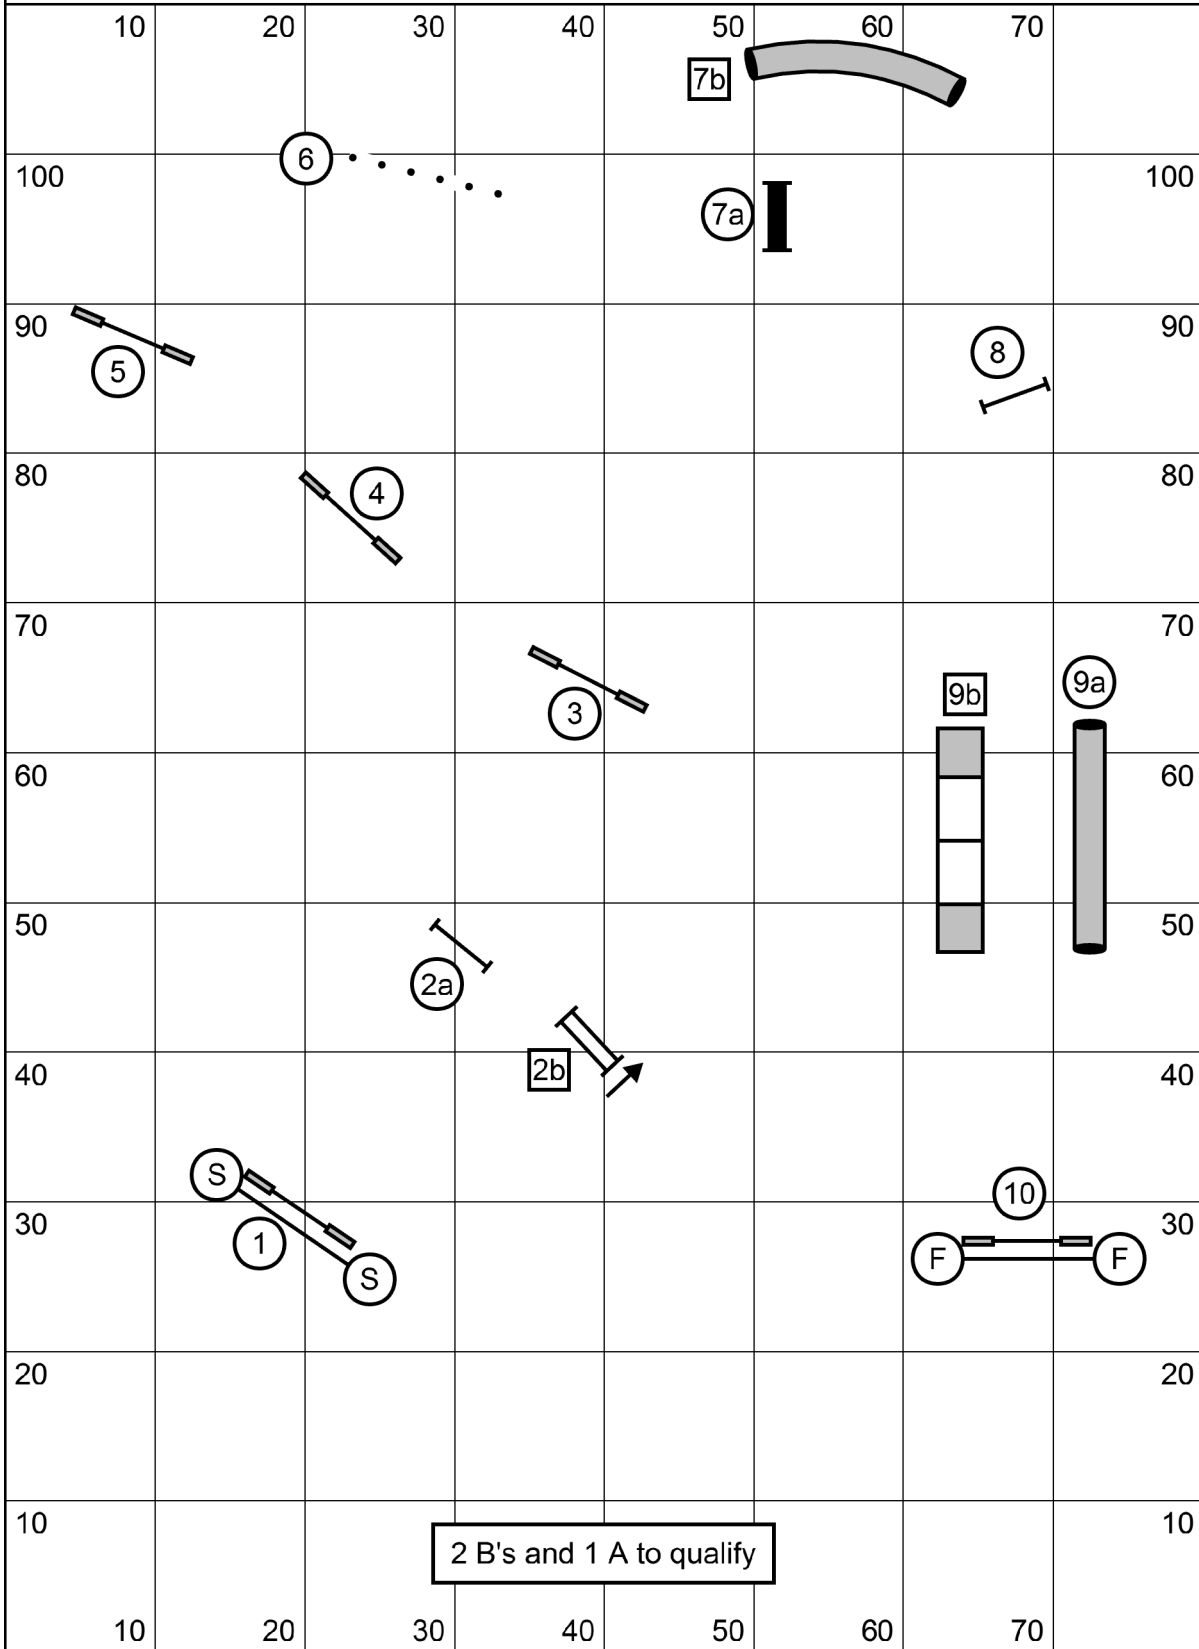

The table is not live until the horn sounds. You must play thru the first horn. The table is worth an additional 5 points when time is stopped.

- 5-points = contacts
- 3-points = tunnels, weaves, double
- 1-point = jumps, panel jump
